Press Release

aaron GM *capezio*

January 12 – February 28, 2010

Opening Reception Friday, January 22, 7-9pm

ltd is pleased to announce its inauguration with an exhibition by the Los Angeles based artist aaron GM.

Using language as a raw material, aaron GM transposes the syntax of a performance based practice into installations composed of video, sound and somatic movements.

Expanding on the formal specificities of painting, aaron GM is interested in creating autonomous mixed-media tableaux where art objects can draw on personal and collective histories to evoke parallel perceptions that prioritize the viewer in a repetitive and playful conceptual shake-up. aaron GM invests in malleability and his work is informed as much as it is formed by foundational materials such as all purpose baking flour and blue “Hurricane Chip” tape.

What unfolds is a “conceptual snow-globe” where cultural referents, linguistic signifiers and performative gestures interact in a riffing vernacular that appears as informed by art history as it is by text-messaging.

aaron GM attended The San Francisco Art Institute and The University of California Los Angeles. His work has been shown internationally.
